The Basics

Is it free?

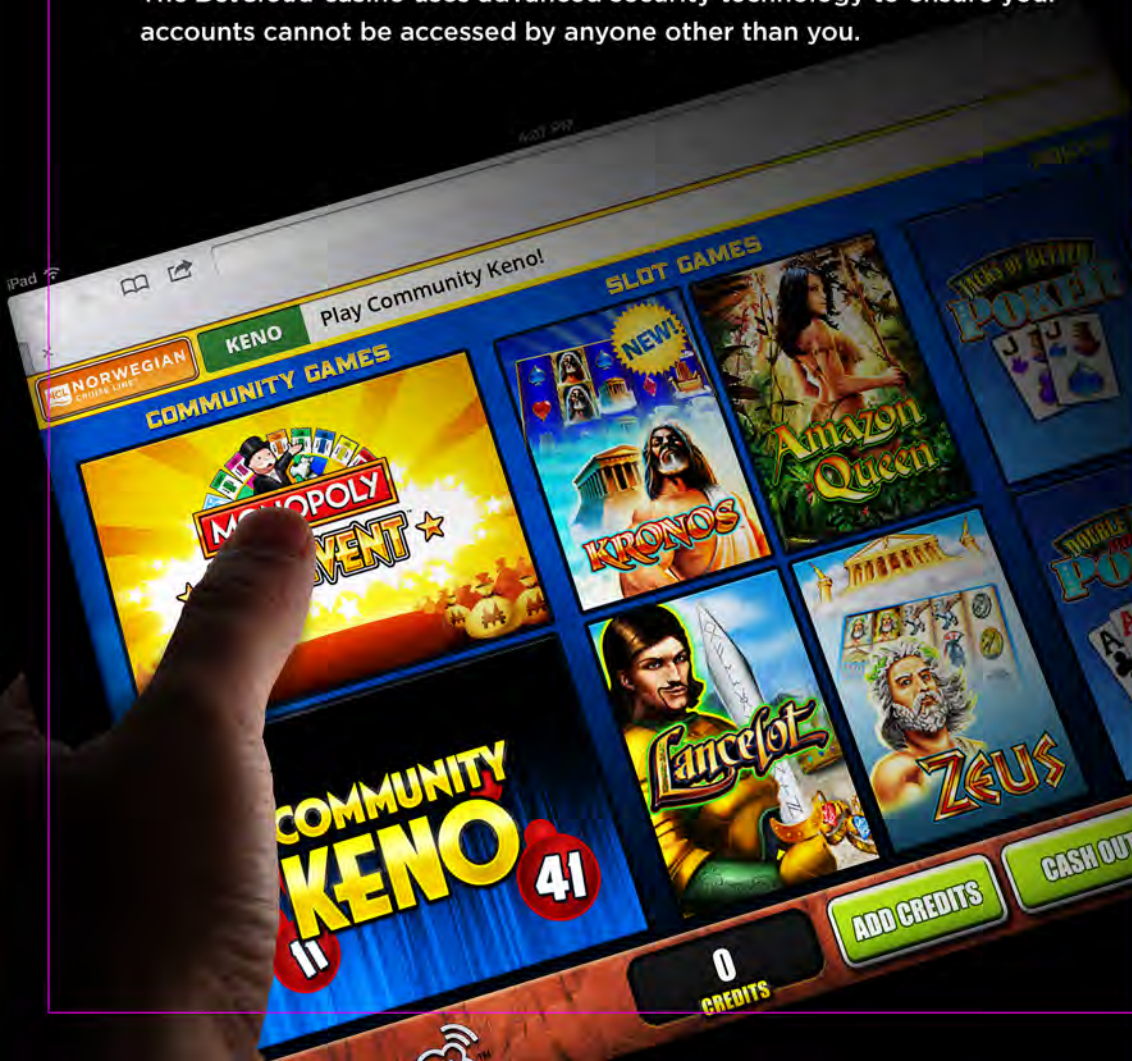

There is no charge to use the *BetCloud* casino to play for fun! Upon login, you can choose if you want to wager *Real Money* or *Play for Fun*.

Can I play all the time?

Once you've created a valid account and have connected to the *NCL_Internet_Gateway* WiFi Network on the ship, you can play *BetCloud* casino games for fun, and whenever the ship's casino is open, you can play *BetCloud* games for real money!

Is it secure?

The *BetCloud* casino uses advanced security technology to ensure your accounts cannot be accessed by anyone other than you.

Gameplay

What is "Buying a Block of Games"?

Buying a *Block of Games* allows you to bet on *Community Games* in advance. When you buy a *Block of Games*, you don't have to worry about remembering to play — your bet will be placed automatically when the next game starts.

What if I don't know how to play a specific game?

Tap the *Question Mark* icon or the *Help* button to get access to the *Help & Pay* screen, which explains how to play the game.

How do I make the *BetCloud* casino a home screen app?

First, tap the *Share* button above in your Safari browser, then tap *Add to Home Screen* and a shortcut to the *BetCloud* casino will be added to your home screen.

How do I sign in and out of my account?

Simply enter your username and password and then tap the *Sign In* button found on the *Welcome* screen or tap the *Sign Out* button found on the *Game Menu* screen.

What if the casino closes in the middle of my game?

There is a five-minute warning before the ship's casino closes. When the casino closes, the *BetCloud* casino automatically completes any unfinished *Play for Money* games for you — but you can still *Play for Fun*.

What if my device loses power?

If your mobile device loses power, you will be able to resume your game where you left off once power is restored:

1. After signing in, the *Game History* screen displays with an *Incomplete Game* message.
2. Tap the *OK* button to be redirected back to the incomplete game.
